PRESIDENT'S REPORT

It is with pleasure that I present on behalf of the Board the President's Annual Report of the Liverpool Catholic Club for the year ending 31 December 2020.

The Club, along with many other businesses, organisations and individuals endured a very difficult year due to the unprecedented impacts of COVID-19, but through the skilled leadership of our Club management and the Board we were able to generate a profit of \$8.09 million for the year. The full details of which are contained in the financial sections of this Annual report

Whilst the Club profit is down by some \$2 million on last year, we are in a very strong financial position with net assets of over \$140 million, a strong cash bank balance and over 51,000 members.

2020 also saw changes in our Club management with the retirement after 36 years of our General Manager Mr John Turnbull. John oversaw many years of growth at the Liverpool Catholic Club and with dedicated Boards transformed the Club into the showpiece it is today. The Board, management, staff and members wish John a happy and long retirement. As a result of John's retirement, the Board were very pleased that Mr Dave Vidler accepted the role as General Manager. Dave is a very experienced club industry leader and we look forward to continued success under his management.

Sadly, we also experienced a loss to the Board of the Club this year with the sudden and unexpected passing of Michael Coffey OAM in January 2021. Michael had been a member of the Board since 2004 and had been Club President from 2016 until his passing. He was a skilled and dedicated President, thoughtful to the concerns and needs of all members, staff and extended club communities. He will be sadly missed by all. Our condolences to his wife Trudy, their three children and seven grandchildren.

2020 continued to be a year of change, brought about by restrictions imposed by the spread of COVID-19. Unfortunately, that meant that a significant number of facilities and services were stopped or severely reduced in our Club and for a period of ten weeks the Club, Gym and sports centre were closed, impacting the employment of our staff. With government assistance via Jobkeeper the Club was able to assist our staff through this period and we thank all our staff for their understanding and support during these difficult times.

We are also grateful to all our members who have continued to support the Club both in Liverpool and Thurgoona during the restrictions and as we return to more 'normal' operations.

Thurgoona Country Club, similarly impacted by restrictions, performed very well and achieved a very good result for the year, building on the successes of 2019, again reflective of the hard work of the management and the team there. We hope that next year we see the return of the successful NSW Seniors Tournament to Thurgoona, which unfortunately had to be cancelled this year.

Our focus continues to be on the financial support of our local Catholic parishes, schools and the wider community of the Liverpool area. Whilst this too has been impacted by COVID-19, we were able to contribute over \$680,000 in donations during 2020, in addition to the sporting and community facilities we provide at the Club and also via our Intra-Club groups. The Board and members thank the efforts and contributions of the co-ordinators, coaches, managers and committees of our Intra-Clubs to the overall success of our Club.

In closing I thank my fellow directors for their ongoing support and commitment during this very challenging 2020 and look forward to a brighter 2021, a year of continued improvement for the Club, our members and the wider community.

FINANCE COSTS

Finance costs include interest, premiums relating to borrowings, amortisation of ancillary costs incurred in connection with arrangement of borrowings and lease finance charges.

Finance costs are expensed as incurred unless they relate to qualifying assets. Qualifying assets are assets which take more than 12 months to get ready for their intended use or sale. In these circumstances, finance costs are capitalised to the cost of the assets. Where funds are borrowed specifically for the acquisition, construction or production of a qualifying asset, the amount of finance costs capitalised is those incurred in relation to that borrowing, net of any interest earned on those borrowings. Where funds are borrowed generally, finance costs are capitalised using a weighted average capitalisation rate.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

3. INCOME TAX EXPENSE (CONTINUED)

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities settled, based on those tax rates that are enacted or substantively enacted. Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

MUTUALITY PRINCIPLE

The company calculates its income in accordance with the mutuality principle which excludes from income, any amounts of subscriptions and contributions from members, and payments received from members for particular services provided by the club or association, eg. poker machines, bar and dining room service in the case of social clubs. The Commissioner of Taxation accepts this method of calculating income as appropriate for recognised clubs and associations.

Amendments to the Income Tax Assessment Act 1997 ensure social clubs continue not to be taxed on receipts from contributions and payments received from members.

The independent valuation of the company's property, plant and equipment was carried out in September and October 2019 by Jeff Millar (RGD No.67391) and P.L. Warren (RGD No.232) of Global Valuation Services on the basis of open market value for existing use which resulted in a valuation of land at \$45,900,000, buildings and improvements at \$170,510,000 and plant and equipment at \$17,853,475. This valuation excludes the completed works relating to the Food Court refurbishment during the year. As property, plant and equipment is held at cost the valuation has not been brought to account. The directors do not believe that there has been a material movement in the fair value since the valuation date. The fair value of the assets in Thurgoona property, plant and equipment that has been included in the amount above and was based on a May 2018 valuation report. The directors do not believe that there has been a material movement in the fair value of Thurgoona assets since the valuation date.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

5. PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

RECOGNITION AND MEASUREMENT

All property, plant and equipment is stated at historical cost less depreciation and accumulated impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the profit or loss during the financial period in which they are incurred.

The depreciable amount of all fixed assets including buildings and capitalised lease assets, but excluding freehold land, is depreciated using the straight line method to allocate their cost or revalued amounts, net of their residual values, over their estimated useful lives, as follows:

Buildings and Improvements	40 years
Leasehold Improvements	40 years
Holiday Units	40 years
Motel – Thurgoona	40 years
Hotel – Liverpool	40 years
Furniture, Plant and Equipment	3 – 33 years
Poker Machine and Accessories	4 – 20 years
Assets under lease	7 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

KEY ESTIMATE AND JUDGEMENT: USEFUL LIVES OF ASSETS

The company determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

6. CORE AND NON-CORE PROPERTIES

Pursuant to section 41J of the Registered Clubs Amendment Act 2006, the club defines property as follows:

Core Property

- i. Defined premises (licensed premises of the Club) at Hoxton Park Road, Liverpool, NSW;
- ii. Defined premises (licensed premises of the Club) at Thurgoona Drive, Thurgoona; and
- iii. Golf course at Thurgoona Drive, Thurgoona.

Non-core Property

- All other property including the:
- iv. Sports complex at Hoxton Park Road, Liverpool;
 - v. Motel at Thurgoona Drive, Thurgoona;
 - vi. Tennis courts at Thurgoona Drive, Thurgoona; and
 - vii. Property at Hoxton Park Road Liverpool (other than the defined/licensed premises of the Club).

Water rights		
<i>At cost</i>	201,352	201,352
Total intangibles	3,244,840	3,054,840

RECOGNITION AND MEASUREMENT

i. Poker Machine Entitlements

Poker machine entitlements are administrated by the state government who restrict the number of poker machines that can be installed by the licensed club holder. The entitlements which may be transferred or acquired and sold do not have an expiration date and are therefore deemed to have an indefinite useful life. Poker machine entitlements are internally generated and therefore are only recognised when acquired and are valued at cost.

ii. Water Rights

Water rights are not amortised as they are deemed to have an indefinite useful life. They have an indefinite useful life as they do not expire and under current government legislation there is no plan to remove such entitlements. As a result, water rights are tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired, and are carried at cost less accumulated impairment losses.

KEY ESTIMATE AND JUDGEMENT: RECOVERABILITY OF INTANGIBLE ASSETS

Impairment of poker machine entitlements is recognised based on a value in use calculations and is measured at the present value of the estimated future cash inflows available to the company from the use of these licenses. In determining the present value of the cash inflows, growth rates and appropriate discount factors have been considered.

The following key assumptions were used in the discounted cash flow model for the poker machine entitlements:

- a. 2.0% pre-tax discount rate;
- b. 4.3% per annum projected revenue growth rate;
- c. 5.6% per annum increase in operating costs and overheads.

Management believes that reasonable changes in the key assumptions on which the recoverable amount of gaming division's poker machine entitlements is based would not cause the cash-generating unit's carrying amount to exceed its recoverable amount.

9. FINANCIAL LIABILITIES (CONTINUED)

Recognition and Measurement

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the profit or loss over the period of borrowings using the effective interest method.

Borrowings are classified as non-current liabilities unless the company has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

RECOGNITION AND MEASUREMENT

WAGES AND SALARIES, ANNUAL LEAVE AND SICK LEAVE

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave expected to be settled within 12 months of the reporting date are recognised in other payables with respect to employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and measured at the rates paid or payable.

LONG SERVICE LEAVE

The provision for employee benefits relating to long service leave represents the present value of the estimated future cash outflows to be made resulting from employees' services provided to reporting date.

The provision is calculated using expected future increases in wage and salary rates including related on-costs and expected settlement dates based on turnover history and is discounted using the market yields on national government bonds at reporting date which most closely match the terms of maturity with the expected timing of cash flows. The unwinding of the discount is treated as long service leave expense.

The present value of employee benefits not expected to be settled within 12 months of reporting date has been calculated using the following weighted averages:

Receivables and payables in the Statement of Financial Position are shown inclusive of GST. The net amount of GST recoverable from, or payable to, the Australian Taxation Office is included as a current asset or liability in the Statement of Financial Position. B. TRADE AND OTHER RECEIVABLES

Trade debtors and other receivables represent the principal amounts due at balance date plus accrued interest and less, where applicable, any unearned income and provisions for doubtful debt accounts. Trade and other receivables are non-interest bearing loans and generally on 30-day payment terms. A provision for impairment is recognised when there is objective evidence that an individual trade or term receivable is impaired. Under AASB 9 there are new impairment requirements which use an 'expected credit loss' ('ECL') model to recognise an allowance. Impairment is measured using a 12-month ECL method unless the credit risk on a financial asset has increased significantly since initial recognition in which case the lifetime ECL method is adopted.

C. INVENTORIES

Inventories are measured at the lower of cost and net realisable value. Costs have been assigned to inventory quantities on hand at balance date using the weighted average basis.
