# COMMUNITY COACHING

**Offered Thursday afternoons or Saturday mornings**

Community Coaching is a non-profit approach to supporting the development, education and training of coaches that will empower them to provide safe, fun and inclusive environments that focus on the needs of their young beginner participants (aged 6-10 years). The program is aimed at offering these young participants the opportunity to try tennis at a budget price (just \$10 per 40 minute session) – or as a stepping stone to the professional coaching offered by our qualified coaches at Paul Sykes Tennis and HoneyBee Kidz Tennis.

The Community Coaches we have identified are adults and teenagers aged 15+ that have expressed a desire to share their involvement in tennis by providing an engaging and exciting experience for their participants. In return, the Community Coaches will be remunerated for their time and effort; but more importantly they will gain valuable leadership skills, personal growth and satisfaction from helping others learn a new skill.

Community Coaching Classes will be groups of four students.
